

International Math

Activity 1 - Number Names From Around the World

Learn how to count in a different language! Here are ways you can count to ten in six different languages:

English	Spanish	German	Chinese	Persian	Japanese
one	uno	eins	yi	ye	ichi
two	dos	wei	er	do	ni
three	tres	drie	san	se	san
four	quatro	vier	si	char	shi
five	cinco	fuenf	wu	paenj	go
six	seis	sechs	liu	sheesh	roku
seven	siete	sieben	qi	haeft	shichi
eight	ocho	acht	bah	haesh	hachi
nine	nueve	nuen	jiu	non	kyu
ten	diez	zehn	shi	daeh	jyu

Activity Questions:

1. What is $\text{eins} + \text{vier} + \text{sieben} - \text{zwei}$? _____
2. What is $\text{juy} - \text{hachi} - \text{ichi}$? _____
3. What is $\text{zehn} - \text{bah} + \text{doh} + \text{san}$? _____
4. What is shi (Japanese) - $\text{uno} + \text{ocho} + \text{bah}$? _____

Try making your own questions for members of your family or your classmates!

For more difficult questions, include multiplication and division.
