

Tools Of Life

Music & Lyrics by: Freeyon Chung

Now here's a song It's my favourite sing-along
It reminds me of all the tools I have to get through life

There's the calculator Which helps me do my math
Like adding and subtracting And dividing by five

Then there's the compass Which tells me which direction to go
But it's also a tool Which let's me draw a perfect circle

Diameter times pi (or $2\pi r$) Gives the circumference
If you walk around it It's an endless cycle

An endless cycle An endless cycle
