The Faculty of Education

The origins of the present Faculty of Education date from an agreement in 1962 between the University and the Province, establishing a professional degree in which the Province undertook to provide the academic work for one year of \(\frac{3}{4}\) the Bachelor of Education degree. The agreement was extended in 1965 for the completion of the remaining year of academic work. As a result of this agreement, the College of Education, which was previously operated by the Provincial Department of Education and Training, became a constituent part of the University. The establishment of the Faculty of Education was authorized by the University's Board of Governors on July 1, 1967. The Faculty was constituted on the same day.

Duncan McArthur Hall

Duncan McArthur Hall is located on the University's campus, in the heart of downtown Kingston. It was named in honour of Duncan McArthur, a distinguished educator and historian who served as the first principal of Queen's College. The Hall is a prominent building on campus and is the home of the Faculty of Education. It contains classrooms, offices, and other facilities for the faculty and students of the Faculty of Education. The Hall is well-maintained and is a popular location for academic and social activities.

The University of King's College

King's College is a private, co-educational university located in Kingston, Ontario. It was founded in 1841 and is one of the oldest universities in Canada. The University offers a wide range of undergraduate and graduate programs in fields such as humanities, social sciences, business, and health sciences. It is known for its strong academics, research opportunities, and community engagement initiatives. King's College is an important institution in Kingston and is highly regarded for its contributions to education, research, and the community.

The Faculty of Education

The Faculty of Education at King's College offers undergraduate and graduate programs in education. It is dedicated to preparing future educators who are well-equipped to meet the challenges of teaching and learning in the 21st century. The faculty is committed to providing a high-quality education that is grounded in both theory and practice. It offers a range of programs including a Bachelor of Education, a Master of Education, and a Doctor of Education. The faculty is known for its strong focus on research and community engagement, and its faculty members are active in various fields of education.

Education Programs Leading to Bachelor of Education or Diploma in Technical Education

One-year extensive programs are available in the faculty of education leading to the Bachelor of Education or the Diploma in Technical Education. These programs lead to a career in teaching in elementary and secondary schools. Candidates must have a high school diploma or equivalent. The programs are designed to provide a comprehensive education that prepares students for a career in teaching. They include courses in pedagogy, curriculum development, and classroom management. The programs are described in detail below.

Programs Leading to Bachelor of Education

Bachelor of Education

The Bachelor of Education program is designed for students who wish to pursue a career in teaching. The program is offered at both the undergraduate and graduate levels. It consists of three main components: theoretical instruction, field experience, and practical teaching. The program aims to develop the skills and knowledge needed for a successful career in education. Courses include educational psychology, educational administration, and teaching methods. Students also complete a practicum experience to gain practical teaching experience.

Bachelor of Education (Specialization)

This program is designed for students who wish to specialize in a particular subject area. It is offered in several subjects, including mathematics, science, and social sciences. The program is designed to provide a comprehensive education in the chosen subject area, as well as general education in other areas. The program aims to develop the skills and knowledge needed for a successful career in teaching in the chosen subject area. Courses include specialized courses in the chosen subject area, as well as general education courses.

Bachelor of Education (Double Major)

This program is designed for students who wish to pursue a career in teaching and who want to specialize in two subject areas. The program is offered in several combinations, including mathematics and science, mathematics and social sciences, and science and social sciences. The program aims to develop the skills and knowledge needed for a successful career in teaching in both subject areas. Courses include specialized courses in both subject areas, as well as general education courses.

Bachelor of Education (International)

This program is designed for students who wish to pursue a career in teaching in an international setting. The program is offered in several countries, including Canada, the United States, and the United Kingdom. The program aims to develop the skills and knowledge needed for a successful career in teaching in an international setting. Courses include specialized courses in the chosen country, as well as general education courses.

Bachelor of Education (Leadership)

This program is designed for students who wish to pursue a career in leadership in education. The program is offered in several countries, including Canada, the United States, and the United Kingdom. The program aims to develop the skills and knowledge needed for a successful career in leadership in education. Courses include specialized courses in leadership, as well as general education courses.

Bachelor of Education (Research)

This program is designed for students who wish to pursue a career in research in education. The program is offered in several countries, including Canada, the United States, and the United Kingdom. The program aims to develop the skills and knowledge needed for a successful career in research in education. Courses include specialized courses in research, as well as general education courses.

Bachelor of Education (Teaching)

This program is designed for students who wish to pursue a career in teaching. The program is offered in several countries, including Canada, the United States, and the United Kingdom. The program aims to develop the skills and knowledge needed for a successful career in teaching. Courses include specialized courses in teaching, as well as general education courses.

Bachelor of Education (Thesis)

This program is designed for students who wish to pursue a career in research and who want to complete a thesis. The program is offered in several countries, including Canada, the United States, and the United Kingdom. The program aims to develop the skills and knowledge needed for a successful career in research. Courses include specialized courses in research, as well as general education courses. Students are required to complete a thesis as part of the program.

Bachelor of Education (Internship)

This program is designed for students who wish to pursue a career in teaching and who want to complete an internship. The program is offered in several countries, including Canada, the United States, and the United Kingdom. The program aims to develop the skills and knowledge needed for a successful career in teaching. Courses include specialized courses in teaching, as well as general education courses. Students are required to complete an internship as part of the program.

Foundational Studies

- English Language Arts (4 credits)
- Mathematics (3 credits)
- Science (3 credits)
- Social Studies (3 credits)
- History (3 credits)

Concentrated Electives

- 2 credits from each of the following disciplines:
  - English Language Arts
  - Mathematics
  - Science
  - Social Studies
  - History

Capstone Experience

- 1 credit

Certification

- Students must complete a minimum of 36 credits to earn a Bachelor of Arts degree in Education.
- A minimum grade point average of 2.5 is required for graduation.
- A passing score on the Praxis Core Academic Skills for Educators (Core) exam is required.
- A successful completion of the state certification exam is required.

Further Qualifications

- Students must complete a minimum of 36 credits to earn a Bachelor of Arts degree in Education.
- A minimum grade point average of 2.5 is required for graduation.
- A passing score on the Praxis Core Academic Skills for Educators (Core) exam is required.
- A successful completion of the state certification exam is required.
- Students must complete a minimum of 36 credits to earn a Bachelor of Arts degree in Education.
- A minimum grade point average of 2.5 is required for graduation.
- A passing score on the Praxis Core Academic Skills for Educators (Core) exam is required.
- A successful completion of the state certification exam is required.
This course leads to eligibility for admission to Part 3 of the four- year Specialist Qualification in Visual Music (Music Technology). Students enrolled in this program must be accepted by the academic department for admission to the one year Honor Specialist qualification.

COURSES OF STUDY

The health education section of the course will focus on the development of a comprehensive curriculum, designed and implemented by the Primary Ministry of Education guidelines for the Intermediate Divisions. The health education curriculum is divided into five major areas:

1. Program overview: The course focuses on the health education curriculum for the Intermediate Divisions.
2. The use of appropriate teaching strategies for the course.
3. The use of instructional activities in the course.
4. The use of instructional techniques in the course.
5. A summary of the general effects of the course.

COURSES OF STUDY

The course is designed to provide candidates with a comprehensive understanding of the health education curriculum for the Intermediate Divisions. The health education curriculum is divided into five major areas:

SPC 201.35 Introduction to Computer Programming

The course is intended for students with no previous programming experience. Current goals are to provide a basic introduction to the writing of computer programs, to develop a perspective on problem-solving, and to introduce students to basic cognitive and linguistic elements of programming. The course will use a sequential and modular approach, focusing on the construction of programs that solve specific problems.
The Master of Education Program

Program leading to a Master of Education degree with specialization in Curriculum and Instruction or Educational Administration are available and are a prerequisite to full-time study. These programs include course work only, with no practicum or field experience.

Each program has a length of 4 half courses and consists of a core of required half courses, together with a selection of one or two courses from a list of available options, the list of which is determined by the student's interests and the nature of his work.

General Information

- Fees
  - The Board of Visitors regulates the fees, which are based on institutional function, such as costs of instruction, research, and support of student services.
  - The fee schedule is subject to change, and the current fee schedule is available from the Business Office of the University.
  - The fee schedule includes tuition, registration fees, and other institutional fees.

- Student Awards and Financial Aid
  - Government Financial Aid
    - The Department of Education provides financial assistance to full-time graduate students who are pursuing a graduate degree in education.
    - The aid includes grants, loans, and fellowships. The amount of aid varies depending on the student's financial need and the availability of funds.
