The Faculty of Education

The Faculty of Education is housed in an impressive educational complex known as Duncan McArthur Hall. This five-story, well-equipped building, provides the setting for all educational activities, the supporting staffs, and the administrative services needed within the College. The well-appointed library has a collection of books covering all aspects of education and all disciplines. The library also provides a variety of reading materials, including newspapers, periodicals, and other educational resources. In addition, the faculty office and the administrative staff are integral parts of the faculty. The faculty office is located in the second floor of Duncan McArthur Hall. The administrative staff is responsible for the smooth operation of the faculty, including the reception of visitors, the scheduling of classes, and the distribution of materials.

Administrative Staff 2000-01

The History of the University

Queen's University at Kingston was founded in 1841 by the British Columbia Government to provide education for the province's expanding population. The university has since grown to become one of the leading universities in Canada. Queen's University has a long and illustrious history, and its graduates have gone on to make significant contributions to all areas of society. The university's mission is to provide a high-quality education and to foster a diverse and inclusive community. Queen's University continues to be a leader in research and innovation, and it is committed to providing an inclusive and supportive learning environment for all students.

**Office:** Room 302, Building 34, University of Cambridge

The effectiveness of a teaching staff can be measured by a range of teaching methods to give a wide variety of learning experiences. This article discusses the study of the following topics: a) teaching staff planning, b) teaching staff development, and c) teaching staff evaluation. The results of the study are based on surveys conducted among 200 teachers. The following conclusions were drawn:

- The effectiveness of the teaching staff depends on the quality of the teaching methods used.
- The teaching staff should be well prepared in terms of pedagogical knowledge and skills.
- The teaching staff should be involved in continuous professional development.
- The teaching staff should be evaluated on a regular basis.
