

Connections: Tech 'n' Tinker Trailer Instructor & Content Developer

Connections is an STEM education outreach organization within the Faculty of Engineering and Applied Science at Queen's University. One of their new programs is the Tech 'n' Tinker Trailer which is a mobile makerspace that travels around the Greater Kingston Area delivering workshops to students in K-12. A Makerspace is a physical location where people gather to share resources and knowledge, work on projects, network, and build. Makerspaces provide tools and space in a community environment. Connections is looking for B. Ed. teacher candidates to join us on their alternative practicum placement to help lead workshops and design new resources using the technology with links to the STEM curriculum. More specifically, the teacher candidates will learn how strategies for using and integrate educational technologies such as 3D printers and robotics into their teaching practice for the classroom.

To seek more information or to apply for this Alternative Practicum Opportunity, please submit a cover letter stating why this position is of interest to you and a recent resume to the community.outreach@queensu.ca
